SWISS TRADE GATEWAY

The Port of Switzerland is the national transport hub in the freight corridor between Rotterdam, Basel and Genoa. Our three ports, Basel-Kleinhüningen, Birsfelden and Muttenz, handle six million tons of goods and more than 100 000 containers per year – 10 % of all Swiss imports. Every third litre of mineral oil and one in four

TO THE WORLD

containers are handled by the Rhine port terminals. Excellent connections by rail and road allow the transport of all kinds of goods. In total, 80 port companies provide storage capacity for containers as well as bulk, liquid and general cargo.

MISSION AND OBJECTIVES

Port of Switzerland – the national and international logistics gateway to the world: one in three litres of heating oil and one in four containers are transported by ship.

We are responsible for securing a functional, future-oriented transport infrastructure (ship-rail-road) for the ports and waterways of Basel-Rheinfelden.

The national Rhine navigation authority for the monitoring of commercial shipping traffic and ship registration, ship personnel, patents and checks.

Our services ensure safety on the Rhine and on board the vessels.

Site development to promote trimodal port logistics.

We provide added economic and operational value for the cantonal owners (Basel-Country and Basel-City) as well as the regional and national business location.

SIGNIFICANCE FOR THE NATIONAL ECONOMY AND ALL BASIC ECONOMIC SUPPLY

The ports ensure adequate supplies

- oil depots for 1 250 000 m³ of fuel
- grain silos for 270 millions loaves of bread
